Exhibit Profile

展览范围

Industrial 3D Printers, Reverse Modelling Equipment, Rapid Prototyping Machines, Rapid Manufacturing Equipment, Desktop-Level 3D Printers, etc

工业级3D打印机、逆向工程设备、快速成型机、快速制造设备、桌面3D打印机等

3D Scanners, 3D Measurement, Coordinate Measuring Machines (CMM), Laser Trackers, Reverse Engineering, 3D Design Software, etc

三维扫描、三维测量、三坐标测量仪/机、激光跟踪仪、逆向工程、3D设计软件等

3D Printer Consumables, including Metal Powder, Photosensitive Resin, Polymer Powder Materials, etc

打印材料及技术包括光敏树脂、塑料粉末材料、金属粉末材料等

3D Printing Services, 3D Sample Modeling, Surface Treatment and Other Rapid Prototyping & Reverse Engineering Services

3D打印材料及技术、快速成型、手板制作、以及逆向工程服务、表面处理等

## Core 3D Printing Technologies for Facilitation of Dual Circulation Development 3D打印核心技术推动国家双循环发展

Facing the huge demand of China, as advocated by different authoritative departments, including Ministry of Science & Technology of the P.R. China, long term support will be provided for the country's important scientific basis and emphases will be put on different high end technologies, especially 3D printing & Laser Manufacturing, A.I., essential fundamental materials, advanced electronic materials and so on. Efforts will be put in stimulating breakthrough of core technologies and promoting dual circulation demand development strategy.

面向国家重大需求，科技部等五部委对关键核心技术中的重大科学问题给予长期支持，重点支持3D打印和激光制造、人工智能、重点基础材料、先进电子材料、等重大项目，推动关键核心技术突破，推动形成国内国际双循环发展新格局。

### Additive Manufacturing International Summit 增材制造技术与应用国际论坛

Great Support from China Academy of Sciences, China Academy of Engineering, Commerce Bureau of Shenzhen Municipality, Industry and Information Technology Bureau of Shenzhen Municipality and so on.

Authoritative Experts from Application End-Users & 3D Printing Service Providers

In-depth Discussion on Innovative Breakthroughs, Solutions, Outlook & Trend of Additive Manufacturing

Face-to-face Interaction & Sharing with Delegates from Various Sectors, including Aviation & Aerospace, Automotive Manufacturing & Design, Machinery Manufacturing, Mold Manufacturing, etc

得到中国科学院、中国工程院、深圳市商务局、深圳市工业和信息化局等单位的大力支持

汇聚知名专家、应用终端企业代表和3D打印服务商

前瞻探讨增材制造领域的应用创新成果、解决方案、未来趋势

与来自航空航天、汽车设计与制造、机械制造、模具制造、3C制造等应用企业参会者进行面对面交流分享、研讨与展望

### 3D Printing Intelligent Equipment Exhibition

### - Honorable Attendance of High-Level Experts in Shenzhen

### 3D打印智能装备展 国内外顶级专家亮相深圳

## 3D Printing – One of the Important Themes of DMP Greater Bay Area Industrial Expo

### 3D打印 大湾区工业博览会重要主题之一

Over Three Decades of Remarkable Experience in Providing the Best Professional Platform 深耕制造业逾30年 实力打造专业平台

ALL-IN-ONE Exhibition Platform Covering the Complete Manufacturing Industry Chain

全方位覆盖完整制造业产业链

Long Established Fame & Reputation with Best Quality & Quantity of Professional Buyers

历史悠久，拥有庞大优质国际买家

240,000sq.m. Exhibition Area – Largest Manufacturing Industry Exhibition in Southern China

24万平米展览面积，成为华南地区最具规模制造业博览会

Wide Spectrum of Exhibits including Mould & Metalworking, Plastics & Packaging, Sheet Metal & Laser, Metal Casting, Robot & Automation, Industry Internet, etc

展品涵盖模具及金属加工、塑胶与包装、钣金与激光、铸造、机器人与自动化、工业互联网等

More Than 50 Massive Thematic Conferences & Summits on Manufacturing Industry Held Concurrently, including.....

大湾区工业博览会同期举行超过50场针对制造业各专题的重要会议及论坛，包括.....

China Industrial IoT Conference Incorporating Greater Bay Area Digital Economy Conference

中国工业互联网大会暨粤港澳大湾区数字经济大会

World Communication Industrial Internet Summit

世界通信工业互联网高峰论坛

International Advanced Manufacturing Industry (China Guangdong) Summit

国际先进制造业(中国广东)高峰会

Greater Bay Area Advanced Coating Technology and Application Summit

大湾区先进涂层技术与应用高峰论坛

Sino-German Robotics and Automation Summit

中德机器人与自动化高峰论坛

Global Mould Materials and Accessories Application Conference

全球模具材料及配件应用交流大会

Nuclear Technology Application Conference

核技术应用大会
